To a criminal neglect of preventive medication may be ascribed a majority of the ailments which affect humanity. It is a well ascertained fact that a course of Hostetter's Stomach Bitters will put even a naturally feeble system in such a state of defence that it will be competent to resist the most prevalent causes of disease, such as the malign influence of miasma, unwholesome water, excessive heat, damp, cold, sudden changes of temperature, etc. For sale by all Druggists and Dealers generally.

Great Damage Caused by a Cyclone in New York.

ITEMS FROM VARIOUS PLACES.

The Steamship Companies Publish a Statement—Jim Renwick Wins Another Race at Saratoga—Riot in Michigan.

UTICA, Aug 12.—It is reported that eight persons were killed and several fatally injured by a cyclone at Norwood to-day. All the church steeples were blown down and one church was demolished. Hail stones completely destroyed the growing crops.

It is impossible to get full particulars to-night. John Martin, Mrs. David Fitzgibbon and Mrs. Armstrong are among the killed. Five hundred excursionists from Plattsburg to Ogdensburg are detained at the latter city to-night on account of the giving way of an Ogdensburg & Lake Champlain railroad bridge.

TROY, N. Y., Aug 12.—This evening a cloud burst occurred at Hoffman Ferry. The New York Central railroad tracks were washed into the river for 500 feet, and telegraph poles and fences were prostrated for miles. Trains east and west are delayed, and passengers are being transferred around the break. A large gang of laborers are at work repairing the damage. Rain fell in sheets destroying crops and inflicting serious damage in various ways. The loss is estimated at thousands of dollars.

THE "HERALD" ON THE TELEGRAPH MUDDLE.

NEW YORK, Aug 12.—The *Herald* says: What is the matter with Gould, Field, Sage and Pender? They seem to assert that some one of them led the others to believe that he had reason to imagine that Garrett would sell out on some terms to the Western Union. They put out a lot of letters to and from each other, but not a scrap, not a line from Garrett, who positively denies all these reports. Field appears to be very much excited about the matter, and Gould, Sage and Green were as excited as Field. What is the meaning of Field's sudden return home in the Aurania? Can it be that Gould has on the strength of reports about the Baltimore & Ohio telegraph unloaded a lot of Western Union on Field and Sage?"

Garrett said to the *Herald* correspondent yesterday: "I regard the whole series of recent reports as fabricated and persistently and fraudulently persevered in, in spite of positive denial, for a stock jobbing purpose, and in order to injure the Baltimore & Ohio telegraph and its allies. I have declined positively all propositions emanating from Western Union sources."

The *Herald* adds: "We advise the public to rest easy. There is to be no land telegraph monopoly nor cable monopoly. Gould is not going to get control of the Baltimore & Ohio land lines nor of the Bankers & Merchants nor the Postal's lines, nor can he and Pender get control of the Commercial cable."

SUPPOSED CASE OF LEPROSY.

CHICAGO, Aug 12.—In regard to the Chinaman who arrived here from San Francisco, and who is supposed to be a leper, Dr. DeWolf, chief of the police department, said to-day he should have the case thoroughly investigated by Dr. Hyde, a well known specialist on diseases of the skin. Dr. DeWolf is not inclined to believe this case one of leprosy, saying that every once in a while a report of a supposed case of leprosy in the city comes to his office only to be found to be spurious on investigation. Another official says that during a six weeks' stay at San Francisco he made particular inquiries for Chinese lepers, but was able to learn of but one case of leprosy among the large Chinese population of that city.

The department of health has caused a medical examination to be made of the Chinaman alleged to be suffering from leprosy. The verdict of the physician was to the effect that the case was not leprosy, but a malignant combination of scrofula and syphilitic tuberculosis. The fact that the disease was not apparent in the man's hands and fingers aided the doctors in arriving at the above diagnosis.

GREENBACK STATE CONVENTION.

CLEVELAND, Aug 12.—The state convention of the Pennsylvania greenback or national labor party was held to-day at Erie. Twenty-one counties were represented by forty two delegates. Wm. Wilhelm of Schuylkill county was made permanent chairman. Speeches were made by several delegates and resolutions submitted by Thomas A. Armstrong of Pittsburg were adopted. They endorse the national platform adopted at Indianapolis in 1884, denounce the policy of hoarding money in the treasury, favor the issuance of full legal tender money in place of national bank notes, demand enforcement of the laws prohibiting railroad discrimination, and demand that the right of petition shall never be abridged by state or national government. A resolution to submit the proposition to a popular vote was tabled. Dr. N. C. Whitney of Warren county was nominated for state treasurer and T. P. Rynder of Butler county was made chairman of the state committee.

LAUNCH OF THE FREDERICK BILLINGS.

ROCKLAND, Me., Aug 12.—The four masted ship Frederick Billings was launched to-day. She is the second largest ship ever built in the United States. Her tonnage is 2628. Her masts will extend seventy feet above Brooklyn bridge and three of the four sections will have to be lowered in order to pass under that structure. Her total cost is $150,000. The ship Frederick Billings is designed for the [illegible] trade between New York and San Francisco. She is only a trifle smaller than the Great Republic. Is square rigged, length 291 feet, from deck to main truck 181 feet. The main sticks of the masts are 90 feet long and are of Oregon pine. The length of the fore and main yards are 90 feet each. She will spread 1,200 yards of canvas. The oak frame of the ship came from Virginia and her hard pine planks from South Carolina. Ten thousand people witnessed the launch yesterday, which was highly successful, the great hull sitting on the water like a duck.

THE ROACH FAILURE.

CHESTER, Penn., Aug 12.—R. W. Steele, president, and John B. Hoover, the naval board appointed to examine and take an inventory of the three cruisers, Chicago, Atlanta and Boston, arrived at Roach's shipyard to-day for the purposes of their appointment. Nothing will be done until the other members of the board have reported for duty. They are expected to-morrow. A force of 400 men are at present employed in the yard, completing work upon the last steamer under Roach's contract with the Mallory line. It is expected the vessel will be ready for delivery to the owners a week from to-day, at which time the yard will be closed.

THE HARLEM CLAIM.

NEW YORK, Aug 12.—Relative to the claim to 10,000 acres in Harlem commons mentioned in these dispatches yesterday, the *World* interviewed Lawyer Brown, a resident of Harlem for forty three years, who knows all about the colonial grants. He says: "There is not a shadow of title. Besides, if there was, it has been vitiated by the long lapse of time during which it has been out of their possession. A similar suit was decided in 1830. The Montagne heirs laid claim to a large tract in Harlem and the court decided that if they had proved their title the property had been too long out of their possession for them to acquire it."

AN OFFICE HOLDER AND A HORSE THIEF.

DENVER, Aug 12.—C. P. Judd, appointed by the president May 18th last to [illegible] agent of the national labor bureau of Nevada and the territories, was brought here from Alamosa to-day on a warrant charging him with horse stealing. Judd drew up and signed a statement to-day admitting his guilt and that he has served a term in the penitentiary at Leavenworth, Kansas, and two terms in the penitentiary of Colorado for similar offences. Judd claims that his application for government position was signed by several well known democrats of Colorado, to which state the appointment was accredited.

THE ADMINISTRATION CRITICISED.

NEW YORK, Aug 12.—The fact that there have been shipments of $10,000,000 in gold coin by mail from San Francisco as registered package has caused much comment in business circles here and at Washington. A representative of a prominent transcontinental road said this morning that it was only another evidence of the alleged economical policy of the present administration. Sending $10,000,000 per day by registered mail is a direct temptation to train wreckers and if continued would have resulted in the sacrifice of human life.

FOR THE CONVENIENCE OF TRAVELERS.

NEW YORK, Aug 12.—The United States treasury department has authorized the American Express company to receive baggage of passengers from Europe upon arrival in New York to be forwarded immediately in bond without examination to the principal ports of entry in the United States and Canada, where duties, if any, will be assessed. This will relieve travelers from the delay and annoyance attending the present system of examination in the port of New York. The express company gives bond of $1,000,000.

THE GRANT MONUMENT FUND.

NEW YORK, Aug 12.—The executive committee of the Grant monument fund met to-day. Charles Cornell was appointed to designate agents for the reception of subscriptions in the different states. A. Fox, cashier of the Merchants' national bank at Deadwood, Dakota, was appointed agent there. It was resolved to establish a branch at Riverside park and if possible erect a place near Grant's tomb, a place [illegible] photographs on sale. The total amount received up to date is $58,111.

THE AMALGAMATED ASSOCIATION.

WHEELING, W. Va., Aug 12.—The amalgamated association convention adjourned this evening to meet at Pittsburg the first Tuesday in June 1886. The scale and national conventions were consolidated, and the scale year changed to commence July 1. The following officers were elected: President Wm. Weihe, secretary Wm. Martin, treasurer James Penny, all of Pittsburg.

THE BATTLE MONUMENT ASSOCIATION.

BENNINGTON, Vt., Aug 12.—Governor Pingree presided at a meeting of the Battle Monument association to-day. There were present Senators Edmunds and Morrill, Professor Hoy of Yale college, Lieutenant Governor Ormsbee and other notable gentlemen. A design by J. P. Rinn of Boston was the only one considered. The design was accepted, and a committee was appointed to report details to the president of the United States and governors of Massachusetts and New Hampshire, which action will entitle the association to receive the appropriations made by congress and the legislatures of these states for the erection of the monument. The fund now amounts to $80,000.

TELEGRAPH COMPANIES CONSOLIDATED.

NEW YORK, Aug 12.—*Kiernan's News* says: A deed conveying the Bankers' & Merchants' Telegraph company to the United Lines Telegraph company was to-day surrendered to the president of the latter company. Under the scheme of reorganization the bonded indebtedness of the Bankers & Merchants will be reduced from $10,000,000 to $1,200,000. A large share of the new bonds will be taken by Mr. Stokes and his friends.

JUDGMENT AGAINST GRANT & WARD.

NEW YORK, Aug 12.—Judgment was entered to-day in favor of Elmer E. Whitaker against the insolvent firm of Grant & Ward for $31,384, in the proceedings brought in the supreme court, to which no defense was interposed. The judgment was rendered upon promissory notes of the firm of Grant & Ward made to the order of James D. Fish, which came into the hands of Mr. Whitaker, but were never paid.

PROTESTS AGAINST DAWNE'S APPOINTMENT.

NEW YORK, Aug 12.—A Washington special says: Protests have been received here from Oregon against the appointment of Edward J. Dawne of that state as United States judge for Alaska. There is no direct evidence on the subject, but his name has been coupled with the discussion about a letter which the president wrote on the 1st inst.

DEATH OF A NOTED BOTANIST.

HARTFORD, Aug 12.—Charles Wright, of Wethersfield, aged 74, was found dead in his barn last night. Wright was one of the leading botanists of the country. He was employed by the government in an expedition to Texas and Arizona, and had also explored Cuba for the Spanish government.

TAKING THE VEIL.

WILKESBARRE, Aug 12.—The impressive ceremonies which attend the taking of the veil occurred at the Mallinckrodt convent here this morning under the direction of Bishop O'Hara. The veil was taken by ninety young ladies from various towns and cities in this country and Europe.

AN APPEAL FOR RIEL.

NATICK, Mass., Aug 12.—A petition is being circulated throughout this state by parties appealing to Secretary Bayard to use his influence in behalf of Louis Riel on the ground that he is an American citizen.

STATEMENT BY STEAMSHIP COMPANIES.

They Publish a Long Card in the New York Newspapers.

NEW YORK, Aug 12.—Steamship companies signing a statement which appears as an advertisement in all the morning papers are the Clyde company, the Pacific mail, the Boulton, Bliss & Dallett, the Cuban Mail and the Havana and Mexican line. The statement occupies three columns.

The *Tribune* recites the action of congress to show that it was clearly its intention that $400,000 of the $800,000 appropriated should be disbursed to American steamships. But were this not so, abundant authority exists in the postmaster general to enter into contracts with such steamships without limitation as to the amount of expenditure, under section 4005 of the statutes, after advertisement to the lowest bidders. It was suggested that he avail himself of this authority. Had the responses to this advertisement indicated any rapacity or greed on the part of the companies there would have been no compulsion to make a contract, but this course was refused and the suggestion that contracts be made under the interpretation of section 4009 was declined. Sea and inland postage received was inadequate payment and they could not be required compulsorily to accept it. They refused to accept it.

THE COMPANIES' ACTION.

No concerted action of any kind was taken by any of the steamship companies, nor was any conference held between them. Representatives of each of the companies called upon the postmaster general to ascertain the course he proposed to adopt after the 1st of July, a few days before that date. Without any notice to the companies whatever a communication appeared in the newspapers, stating that the postmaster-general declined to carry out the act of 1885.

Although the steamship companies, as a matter of principle, have refused the proffer of the government, they continue to carry mails, as the law permits them to be carried without any compensation to themselves, conveying such letters as may be delivered to them by the public enclosed in properly stamped envelopes. The government is at no loss, and it will receive the whole of sea and inland postage. The public is at no loss. It has now the advantage of deciding whether to send its mails by various companies, or whether to take advantage of the new facilities the government affords by carrying mails in foreign ships, facilities by which mail will reach Japan from San Francisco in [illegible] days instead of eighteen days as heretofore.

RUN FOR PROFIT.

As an illustration of the policy by which our government, alone among the leading powers, seeks to profit from its service, it may be stated that the United States received from the British government for transportation of Australian British closed mails between New York and San Francisco [illegible] cents per pound for letters and [illegible] cents per pound for papers. Out of this the government paid to overland railroads for transportation of mail which it never opened, handled or inspected only [illegible] cents per pound for letters, pocketing the residue and paying not one cent to the steamship company for the conveyance of mails from San Francisco to Australia, so that the government earned a clear profit of 26½ cents per pound on the mails for doing nothing. The overland railroads received [illegible] cents per pound for carrying mail 3000 miles, and the Pacific Mail steamship company received for transporting them 7000 miles from San Francisco to Australia nothing from this government, so that it may be fairly estimated that every departure of the Pacific Mail steamer from the port of San Francisco for Australia the government realized a profit of $3,000 and upwards.

CRIMINAL CALENDAR.

BLOODY RIOT IN MICHIGAN.

BAY CITY, Mich., Aug 12.—This morning about 9 o'clock a telephone dispatch was received by Sheriff Brennan, stating that strikers had forcibly shut down Carrier, Heath & Co.'s salt works and asking assistance. He responded with a number of deputies and reached the scene as the strikers were leaving. He ordered them to disperse, at which they yelled and hooted. He proceeded to talk to them, but they refused to disperse, whereupon he undertook to arrest one who he thought was the leader. The strikers interfered and for some minutes great disorder reigned. Clubs were drawn and used on the officers and they pulled revolvers. Sheriff Brennan was shot in the forehead by one unknown in the back of the crowd. The ball grazed the skin as the officer happened to turn his head. He also received a blow on the left side of the head from a club. He fired two shots from a revolver and a few other shots were exchanged by other officers and rioters. When blood began to flow the rioters began to disperse in all directions. The deputies arrested nine and now have them in jail. Three or four of the rioters were wounded. This is the first bloodshed since the third day of the strike.

SECOND THIEF ARRAIGNED.

NEW YORK, Aug 12.—[illegible] was arraigned this afternoon charged with having abstracted $4000 in bonds of the Flint & Pere Marquette Railway company, $4000 in bonds of the Milwaukee, Lake Shore & Western Railway company, $8000 in bonds of the New York, Chicago & St. Louis Railway company, $1000 in bonds of the Delaware, Lackawanna & Western Railway company, and $500 in bonds of the Burlington, Cedar Rapids & Northern Railway company from his aunt, Mrs. Sarah N. Cogswell, of Plainfield, New Jersey. Brooks came to this city with the bonds and tried to dispose of them. The police were notified and young Brooks was arrested. The bonds were found intact at his hotel. Brooks was remanded and will be taken to Plainfield, New Jersey, to answer for his crime.

MURDERER CAPTURED.

FORT SMITH, Aug 12.—A deputy marshal captured the murderer of Malachi Herring this afternoon in the Choctaw nation and placed him in the United States jail here. An old man named Thomas Bowman acknowledged the killing. Herring had been paying frequent visits to Bowman's young wife and he warned him to stop. Herring kept up his visits, and Monday evening while leaving Bowman's house was shot by Bowman and died in two hours.

An Angry Father Flogs the Seducer of his Daughter.

THE ARMY AND NAVY THANKED.

England and Russia Continue Warlike Preparations—Appalling Increase of the Cholera Epidemic in Spain and France.

LONDON, Aug 12.—The *Pall Mall Gazette* states that a member of the royal commission to inquire into the depression in trade was flogged publicly in this city this afternoon for seduction of his assailant's daughter.

A reporter of the *Gazette* immediately after the flogging interviewed the assailant. The latter said: "I shall flog the betrayer of my child whenever he crosses my path. You may publish my name, provided you publish his. If he feels aggrieved he can take action against me. I should be only too glad to meet him in any way. I have no fear that he will be plucky enough to face me in court. I have not done with him yet."

The reporter then called upon the man who had received the thrashing and asked for his side of the story. The gentleman said: "The story told you by my assailant is nonsense. I have not been flogged. The man struck me with a stick, and abused me. It is merely a case of blackmail of a peculiarly bad kind. The statement that I have betrayed his daughter is absolutely false. The names of the parties to the scandal have not yet been made public.

THE ARMY AND NAVY THANKED.

LONDON, Aug 12.—In the house of lords this afternoon the Marquis of Salisbury, in moving a vote of thanks to the army and the navy for their recent services in Egypt, paid a strong tribute to Wolseley and Gen. Graham and other officers and the soldiers and marines who took part in the Khartoum expedition, for the valor, perseverance and high spirit they displayed in the arduous work of the desert campaign. The prime minister praised in unmeasured terms the valor and devotion of Gen. Gordon and of Gens. Earle and Stewart and other officers and men who lost their lives during the Soudan war, and fittingly expressed condolence with their relatives and friends.

Baron Carrington, moderate liberal, warmly seconded the motion, which was adopted. It was noteworthy that not a single liberal leader was in the house of lords during the above proceedings. Their absence was much remarked, and was considered as a demonstration against the motion.

Sir Michael Hicks-Beach, chancellor of the exchequer, made a similar motion in the commons.

MEMBERS OF PARLIAMENT SHADOWED.

NEW YORK, Aug 12.—A London special says: The society for the suppression of vice has employed detectives to shadow every member of the house of commons and report houses visited by them. The members are furious, but are afraid to complain, for fear of making it appear they have something to be ashamed of.

TRUE TO SIR CHARLES.

LONDON, Aug 12.—Mrs. Mark Patterson, fiancee of Sir Charles Dilke, is now in India, on a pleasure tour. On learning of the scandal in which the name of her intended husband is connected she immediately telegraphed Sir Charles to announce their engagement publicly.

FRANCE.

A PANIC AT MARSEILLES.

MARSEILLES, Aug 12.—The cholera panic increases daily. The average departures from Marseilles by railway alone has already increased to 5000 per day. As an instance of the laxness with which the Marseilles sanitary authorities perform their duties the case of the captain of an English vessel lying in this port may be mentioned. The captain's daughter died of cholera aboard ship. He at once notified the authorities and requested the disinfection of the vessel. Although at noon to-day thirty hours had elapsed since the girl's death, no official action has yet been taken concerning the event by the authorities.

ANNAM AND TONQUIN.

PARIS, Aug 12.—The cabinet to-day discussed at length the question of the organization of a settled government in Annam and Tonquin. Gen. Campenon, minister of war, is making arrangements to relieve French troops who have done two years' service in Tonquin.

The *Temps* says the massacre of Christians in Annam is the outcome of the impunity that criminals have enjoyed there since 1883. It adds that it is the duty as well as to the interest of France to insist on exemplary punishment being inflicted upon murderers.

THE CHINESE TREATY.

PARIS, Aug 12.—Translations of the memorial sent by the prime minister of China to the empress respecting the treaty of peace recently concluded between France and China shows that the Chinese premier evidently desires to remain at peace and to profit by it in opening up the south frontier of the empire to French trade.

REVENUE REDUCED IN FRANCE.

PARIS, Aug 12.—French revenue returns for the past seven months just past made public show that recent prospective legislation has failed to exclude foreign sugars. The returns say that the home product contributed in duties a sum $4,000,000 below the budget estimates, while foreign sugars yielded $6,300,000 over estimates.

AN ANGLO-CHINESE ALLIANCE.

PARIS, Aug 12.—The *Republique Française* mentions that an Anglo-Chinese alliance offensive and defensive against Russia has been perfected. That journal contends that if England concludes a similar alliance with Turkey, war with Russia will be imminent.

SPAIN.

THE CHOLERA EPIDEMIC.

MADRID, Aug 12.—Thirty five new cases of cholera and nineteen deaths from the disease were reported in this city yesterday. Fifteen of the new cases exist in one street. This discovery caused a sensation and the authorities are thoroughly disinfecting the thoroughfares.

MADRID, Aug 12.—Four thousand five hundred and sixty seven new cases of cholera and 1659 deaths were reported yesterday throughout Spain.

A STARTLING INCREASE.

MADRID, Aug 12.—The number of cholera cases has greatly increased. In this city 60 new cases and 18 deaths, and in the province 110 new cases and 38 deaths were reported to-day. Travelers in many districts are quarantined five to twenty days, and undergo great hardships, being lodged in barns or in the open air and suffering from a lack of food. Some villages are strictly cordoned. Trenches have been cut to stop travel on the roads. Villagers threaten strangers and compel them to leave. The government has ordered the governors of provinces to suppress lazarettos, but the governors are in many instances powerless to carry out orders.

A NATIONAL CALAMITY.

MADRID, Aug 12.—The *Gazette* says: In the past twenty four hours 6464 new cases of cholera and 2109 deaths have been reported from 856 towns in thirty six provinces in Spain. This is the highest number of victims yet reported. The press calls upon the government and higher classes to combine their efforts to avert the national calamity. The King and queen have sent large donations to Saragossa and Granada. The epidemic is visiting all the fashionable seaside resorts. At each place visited a panic ensues and the place is deserted in forty eight hours. To-day six cases were reported in one house in Madrid.

MARSEILLES, Aug 12.—Suspicious deaths have occurred at Salon and Pelissan. A refugee from Marseilles has died at Bastia.

CHOLERA ON A BRITISH VESSEL.

GIBRALTAR, Aug 12.—A British steamship has quarantined off Mers El Kebir, in Algeria, with four cases of cholera on board. One person has died from the disease on the same vessel.

AUSTRIA.

TO BE WELL PROTECTED.

VIENNA, Aug 12.—Minutes of the orders issued to officials of the Northern railway concerning their conduct during the imperial journey to Kremsier to meet the czar of Russia have been issued. Among other precautions ordered for the emperor's safety is one commanding a line of guards to be posted along the entire route at distances of fifty paces from one another.

CHOLERA FEARED AT ODESSA.

VIENNA, Aug 12.—Dispatches from Odessa state that several cases of a sickness resembling cholera have occurred in Odessa's suburbs and that in consequence all arrivals from Marseilles are prohibited.

NOTES FROM LIMA.

LIMA, via Galveston, Aug 12.—Trujillo was occupied by government troops without resistance, the Montoneros having retired to the interior. A fight took place at Sarcon on the 7th inst. between a body of government troops numbering fifty and a party of Montoneros. The latter were defeated and eight of their number taken prisoners.

A paper here has been republishing articles from the *Pall Mall Gazette* and in comment thereupon says the same immoral practices are carried on in Lima. The matter has been taken up by the government. The accusation is, however, ridiculed by the rest of the press.

THE AFGHAN TROUBLE.

RUSSIA OCCUPIES AN ISLAND.

LONDON, Aug 12.—A dispatch received this afternoon from Shanghai confirms a recent report to the effect that Russians had occupied the island of Quelpoert, at the entrance to the Yellow sea, south of the Corean peninsula, and some forty miles to the northeast of Port Hamilton, recently occupied by England. Russian troops are erecting formidable forts on the island and otherwise adding to the defensive arrangement. The news caused little or no excitement in official circles here as Quelpoert has not a single harbor. Its coasts are exposed to the full blasts of the monsoon and being high and rocky are exceedingly dangerous to navigation.

MILITARY MOVEMENTS CONTINUED.

MESHED, Aug 12.—A Persian contractor from Merv states that two Persians in the Russian service, accompanied by several Afghans, have gone to Herat to confer with Ayoub Khan's partisans and to report upon the state of the country. Komaroff frequently passes to and fro between Penjdeh and Merv. Active military preparations continue.

ENGLAND'S HAND SHOWN AT HERAT.

LONDON, Aug 12.—Villages and gardens in the environs of Herat are being demolished so as to prevent their use for covering movements of Russian troops in case of hostilities. England will pay for the property destroyed.

SUMMONED TO THE CZAR.

ST. PETERSBURG, Aug 12.—All Russian ministers in the Balkan states have been summoned to St. Petersburg to confer with the government previous to the coming meeting between the czar and the emperor of Austria.

CULTIVATING THE INDIAN PRINCES.

CALCUTTA, Aug 12.—Dufferin is actively engaged in strengthening the friendship of Indian chiefs. He will give a grand durbar in November. All the dignitaries of Central Asia are expected to attend.

MEXICO.

DIAZ PAYS TRIBUTE TO GRANT.

MEXICO (via Galveston), Aug 12.—At a reception accorded by the minister of foreign affairs to the committee appointed by the American colony, President Diaz stated that he was very happy to be able officially and personally to show his respect for the great American soldier, statesman and citizen, and that while recognizing his superior eminence is such he did not forget that Grant was the greatest friend Mexico ever had.

GERMANY.

THE INTERNATIONAL TELEGRAPHIC CONGRESS.

BERLIN, Aug 12.—The American delegate to the international telegraphic congress yesterday made an eloquent speech in favor of Bismarck's proposal establishing an international tariff of 1 or 5 cents a word for messages to and from any point in Europe. The facts, however, that a committee on tariffs has elected as chairman the Austrian delegate, who is opposed to the plan, and that England's opposition to it is increasing indicates the scheme will be rejected.

CANADA.

NO FENIANS NEED APPLY.

OTTAWA, Aug 12.—The attention of the state department having been called to the appointment of a Fenian, James Whelan, of Buffalo, to the consulship of the United States at Fort Erie, announced that nothing can be done in the matter at present, as the Dominion government has not yet been officially notified of his appointment. It is understood that Whelan's exequatur will be refused.

CHINA.

NEWS FROM GEN. DE COURCY.

PARIS, Aug 12.—Gen. DeCourcy telegraphs as follows: "We have fixed our headquarters at Haiphong during the prevalence of cholera. There were 178 deaths from cholera yesterday in Haiphong and sixty six persons are down with the disease to-day. We have a large number of volunteer nurses to care for the sick. There is an excellent feeling among the troops."

BOLD AND SUCCESSFUL BANK ROBBERY.

SAN JOSE, Aug 12.—A sensation was caused to-day by the bold robbery of the San Jose Safe Deposit bank of savings. This afternoon a man entered the bank and obtained a bill of exchange for $8.50. The cashier and the manager were in the bank at the time. A few minutes after the stranger departed the cashier, John E. Auzerais, missed a tray containing $10,000 in gold in twenties. An alarm was immediately given and search made, but without result. It is believed two or more men were engaged in the theft, that while the attention of the bank officers was engaged by the men in front the others slipped inside the counters and stole the money. The bank offers $10,000 for the capture of the thieves or money.

A MURDERER LYNCHED.

EUREKA, Aug 12.—A terrible tragedy took place on Mad river in this county last evening near the North fork mill. A woman named Amanda M. [illegible], who was cooking at a logging camp, was murdered in a cabin, having her throat cut from ear to ear. Suspicion rested on a man named Henry D. Benner, who formerly lived with the woman as her husband. He was arrested and while in charge of a deputy sheriff was taken from the officer by a crowd of woodsmen and perforated with bullets. Benner denied his guilt in the presence of the murdered woman, but circumstances point so closely to him that there seems to be no doubt of his guilt.

A MEXICAN MURDERED.

SAN FRANCISCO, Aug 12.—Leon Satero, a Mexican sailor, aged 27, was stabbed and killed last night by his cousin named Clemente. The murder was the result of a quarrel. Satero objected to the presence of two persons who accompanied Clemente to his room, in which lay the body of an old woman, a friend of Satero, whom he had been nursing and who had died only a few hours before. Clemente escaped and had not been captured up to midnight.

LARGE STRIP OF LAND UNCLAIMED.

The Central Pacific land office, while making a map of railroad lands in Idaho and Utah, made the strange discovery that Idaho claimed one boundary line and Utah another, and that a strip of land two and a half miles wide extending across the northern part of Utah was left, which by the survey does not belong to either territory. The surveys used are those filed at Salt Lake and Boise City.

A JUDGE COMMITS SUICIDE.

George Turner, ex-United States district judge of Virginia and ex-chief justice of the supreme court of Nevada, committed suicide this afternoon. He shot himself through the head with a revolver at the Lick house. He left a letter stating that the cause of the deed was ill health. He leaves a wife, son and daughter. Of late he has been practicing law in this city.

FOREIGN MAILS.

SAN FRANCISCO, Aug 12.—Postmaster Back has received a telegram from Postmaster General Vilas telling him to send mails by any steamer that will carry them along the west coast of America. This order is looked upon as only a temporary arrangement. No further instructions have been sent concerning China and Australian mails.

JUDGE CLOUGH RESIGNS.

Superior Judge Clough, who was recently discharged from the insane asylum at Stockton, has resigned. Governor Stoneman, it is reported, will appoint Walter H. Levy of this city in his stead.

DEATH OF HELEN HUNT JACKSON.

Mrs. Helen Hunt Jackson, the well known authoress and contributor to the *Atlantic* and the *Century* magazines, died here to-day from cancer of the stomach.

WASHINGTON TERRITORY.

FATALLY INJURED BY AN ACCIDENT.

CHEHALIS, Aug 12.—Peter Smith, of this place, died to-day from injuries received by a wagon running over him yesterday while hauling oats from his field. He was thrown from his wagon between the horses and one of them kicked him severely. The wheels then passed over his body, causing injuries which resulted in his death. He leaves a wife and two children. The funeral takes place to-morrow.

RAILROAD NOTES.

UNION PACIFIC SEMI-YEARLY REPORT.

BOSTON, Aug 12.—President Adams of the Union Pacific Railway company submitted to the directors this morning a statement of the financial results of the half year as compared with those of the corresponding half in 1884. The report shows a total income of $3,741,180 and total expenditures of $3,384,018. This with United States requirements $384,[illegible], makes a total deficit for the six months of $429,121. The deficit for the corresponding period in 1884 was $317,240. Land sales for the six months ended June 30 were 313,132 acres, aggregating $553,496, as compared with 3,051,189 acres, aggregating $[illegible] in the corresponding period last year.

WANT TO WORK FULL TIME.

KANSAS CITY, Aug 12.—The Union Pacific shopmen have appointed a committee which will endeavor to secure a modification of the order for reduction of working time.

KANSAS CITY, Aug 12.—Union Pacific shopmen held a meeting to-night, but their deliberations were kept secret. Many of the men say they can not support families at the proposed reduction.

A CIRCULAR RELATING THERETO.

Many Bankers Object to Helping the Government by Taking Silver Coin off Its Hands—Randall Gives Way to Carlisle.

A LETTER FROM GEORGE B. LORING.

WASHINGTON, Aug 12.—George B. Loring, ex-commissioner of agriculture, has written a letter in reply to Judge Durham's communication announcing a disallowance of a portion of Loring's accounts as commissioner. He says the statutes never laid down definitely and precisely his duty with reference to details of the work of the bureau, and the commissioner was obliged to lay out the work without directions, and to use appropriations for the purposes specified in the act, by law, according to his own judgment. This course, he says, had been followed by all his predecessors in office. With respect to services rendered by manufacturers in making sugar experiments he declares they were by no means small, and the compensation they received ($1200 for each of ten most carefully conducted experiments) was considered no more than just and reasonable. He states that he expended the appropriation under the head of "laboratory," in the purchase of machinery, in the purchase of seed and the distribution of seeds of sugar-producing plants, in a series of investigations in chemical analysis and in manufacturing, all for the purpose of carrying out the objects of the statute. All the items disallowed were expended in conducting experiments provided for. Disbursements differing in no way from those complained of were allowed by the treasury department in 1882 and 1883, but are now disallowed, together with the account of labor employed in the work of distribution.

RANDALL GIVES WAY TO CARLISLE.

WASHINGTON, Aug 12.—The statement is made public that Speaker Carlisle has, within the past few days, received a call from ex-Governor Curtin, of Pennsylvania. The ex-governor said that Mr. Randall would not be a candidate for the speakership next winter and that he (Curtin) desired the honor of presenting Mr. Carlisle's name to the caucus as speaker of the forty ninth congress. Governor Curtin added that if this privilege were accorded him he would move to make the nomination unanimous, as it was not at all probable that Mr. Carlisle would have any competitors for the place. The speaker expressed gratification at Governor Curtin's suggestion and assured him that the tender was all the more flattering coming as it did from so prominent a friend of Mr. Randall. He promised to write to his Kentucky friends in regard to the matter, and signified his willingness to accept the governor's offer if it could be so arranged.

THE RECENT ARMY ORDER.

WASHINGTON, Aug 12.—Three officers in the signal service—First Lieut. A. W. Greely, Fifth cavalry, First Lieut. Robert Craig, Fourth artillery, and First Lieut. H. H. C. Dunwoody—are included in the provisions of the recent order directing line officers who have been on detached duty four years back to their regiments. An exception, however, will probably be made in the case of Lieut. Greely, in order to allow him to complete his report of the Arctic expedition.

KELLEY TO HAVE A PLACE.

NEW YORK, Aug 12.—A Washington special says: Second Assistant Secretary of State Adee, it is said, is to be asked to resign soon. His place is to be given to Kelley. It is asserted Bayard takes the ground that something must be done with Kelley on his return to prevent an impression abroad that he had been repudiated by his own government.

THE IMMEDIATE DELIVERY SYSTEM.

It will be Put in Operation the 1st of October Next.

WASHINGTON, Aug 12.—A circular relating to the immediate delivery system which is to be put in operation in October has been prepared and will be sent to postmasters at once. After quoting section three of the postoffice appropriation bill, which provides terms under which immediate deliveries are to be made, the circular says:

It has accordingly been decided to introduce the special delivery system the 1st of October, 1885, at all postoffices at which are permitted by law, viz.: Those at which the free delivery system is in operation, and those in cities and towns having a population of 4000 or over as shown by the last federal census.

Suitable supplies of these special delivery stamps will be sent to any postoffice in the country which may make a requisition for them, and when received they are to be taken up by the postmaster in his account current and accounted for quarterly in the same manner as ordinary postage stamps. They are to be sold by postmasters in any required amount and to any person who may apply for them, but they can be used only for the purpose of securing the immediate delivery of letters addressed and received in mails at any offices designated as special delivery offices. Under no circumstances are they to be used as payment for postage of any description or of registry fee, nor can any other stamps be employed to secure special delivery except special delivery stamps. The special delivery stamp must be in addition to lawful postage, and letters not prepaid with at least one full rate of postage in accordance with the laws and regulations must be treated as held for postage, even though bearing a special delivery stamp in addition to the full postage and registry fee required by the law and regulations.

Special delivery stamps must be effectually canceled at the office of mailing in the same way as ordinary postage stamps. A letter bearing a special delivery stamp in addition to lawful postage may be mailed at any postoffice in the country, but it will not be entitled to an immediate delivery by messenger when addressed to a postoffice to which the special delivery system has not been extended.

Special delivery letters will be delivered by messenger within the carrier limits of free-delivery offices, and within a radius of one mile from the post office at all other special delivery offices.

Postmasters at fourth-class offices are not entitled to commissions on special delivery stamps in any case.

No effort will be spared to expedite the mailing of letters bearing special delivery stamps addressed to special delivery offices. Postmasters are urged to use all available means for furnishing the public with information with regard to the special delivery system. A list of special delivery offices will be furnished to postmasters and must be conspicuously posted in the postoffice where it will readily attract public attention.

WM. F. VILAS, Postmaster General.

The second circular by the postmaster-general embodies technical instructions to postmasters concerning the above system. It directs postmasters to employ the requisite number of messenger boys to insure prompt delivery, and provides that substitute letter carriers may be employed as messengers, and receive the same compensation as other messengers, but in no case shall the compensation paid to any one person exceed $30 per month. "Two objects," says the postmaster-general, "must be particularly and strenuously sought. First, the most efficient delivery service, and second, to bring the service up to a revenue yielding condition."

THE SILVER QUESTION.

The Banks of the Country Object to the Clearing House Appeal.

WASHINGTON, Aug 12.—It is learned here to-night that a batch of 300 and odd letters received by the committee of the New York clearing house, in reply to its 7000 circulars sent to banks and banking concerns all over the country, asking aid in circulating subsidiary silver coin now in the government vaults, would be mighty interesting reading, could their full texts be got at. Enough is known, however, authoritatively to state that in many of those letters the advocates of silver coinage are spoken of as traitors to their country, and congressmen who take that position are called false to their constituents. Treasurer Jordan comes in for a dab from Colorado bankers for foolishly thinking the government is cramped for gold and thus again stirring up the silver question.

Several bank presidents down in Texas write to the effect that in their opinion banks in the New York Clearing House association should give some substantial assistance in circulating silver if they really are in earnest about it. Banks down in Mississippi say it is all very well for the government to pay for transportation of silver to them, but they want to know who is to foot the bill when they are compelled to ship it in payment of drafts upon them.

A western bank president comes out flat-footed in his refusal to lend the government aid. He says: "A government that will stamp eighty cents as a dollar doesn't deserve any help. It is rascally to the core, and the quicker it sinks the better."

A Missourian wants to know "Why the president has shut up like a clam on the subject since he went to Washington."

There are any number of banks and bankers who express themselves as outraged to be compelled to take eighty cents for one dollar. A bank in a little town in Louisiana returned the committee's circular with the remark that there was already too much silver in circulation in that vicinity.

PORTLAND, THURSDAY, AUGUST 13, 1885.

CIVIL SERVICE REFORM.

The address delivered by George William Curtis before the National Civil Service Reform league, at Newport, Rhode Island, August 6, comes in full in Eastern journals. A careful reading in the light of facts shows it to be a disingenuous plea. Its main object is to find in the course of the president a justification of the action of the mugwumps in aiding to elect him. Of course this justification Mr Curtis professes to find but it is with infinite subterfuge and toil that he does it What is the use of attempting to disguise the fact that thousands of persons have been removed from office only because they are republicans, and other thousands put into office only because they are democrats? And what is gained by pretending to shut one's eyes to the fact that this is going on all the time, and at a rate which will, in time, transfer all of the remainder of the offices to the president's own party?

Republicans are not complaining about this It is no more than expected. In fact the president has not made so many changes as they supposed he would make by this time Nevertheless, thousands of the changes that have been made are as foreign to the whole spirit and professed purpose of civil service reform as any policy could possibly be. The reform rests upon the idea that public office is a public trust, and not party spoil. How can it be reconciled with the removal of a good officer because he is a republican, to secure the place for a democrat because he is a democrat? As the Philadelphia *Press* truly says, there is not a principle or an idea that enters into civil service reform which is not irreconcilable with the arbitrary removal of officers during their term without adequate public cause There are many advocates of the reform who insist that it should go much beyond this point They object to any fixed term They insist that the tenure should run during good behavior They would have the officer secure in his place not merely during a prescribed time, but during an unlimited period But whether all are prepared to accept that doctrine or not, all ought to be ready to agree that where the term is fixed the officer should be protected against removal in the midst of it. This proposition does not include all of the reform, but any reform includes this proposition. The reform aims to give stability to the service How then can it be harmonized with removing an officer at will? The reform seeks to relieve the incumbents from being dependent on the caprice or the exactions of a political appointing power How then can it be made consistent with the assumption which leaves every officer without any assurance of remaining and wholly at the mercy of the appointing authority?

But the professional civil service reformers for whom Mr Curtis speaks, show their "peculiarity" further by warmly approving the present administration for its reform record, yet at the same time demanding that the reform shall include the repeal of the four years' tenure law Yet the president, for whom they profess such admiration, hasn't yet come up even to the measure of reform embodied in that law He tramples on it every day As a matter of fact, it will be found that this law will stand The people are not going to have life tenure in the officer, even in the name of reform

The mugwumps are in a peculiar position They want to make it appear that they are fully satisfied with the results of their political action last year and yet they are confronted by "the hungry and thirsty" democratic party to whom the president is forced to make concessions alike incompatible with the principle and practice of reform What will be the fate of the president in the clash of views between the mugwumps and democrats cannot yet be clearly seen, but it may be set down as a certainty that there can be no permanent adherence of the mugwumps to the democratic party This reform movement was started in the republican party, and in that party is the great body of its firmest and most practical friends.

President Cleveland is "like a man to double business bound." He is pushed on by the democrats and held back by the mugwumps The result is a thoroughly inconsistent policy

INCENDIARY FIRES

A New York insurance journal has issued a volume entitled "Fire Tables," containing a fire record of the United States for the years 1883 and 1884 The tables are very full of detail One of them is of startling interest. It furnishes information in regard to incendiary fires in nearly all parts of the country It is startling, because it shows that in some of the states nearly one-half of the fires are caused by incendiarism In Tennessee the proportion in 1883 ran as high as 74 per cent., and in the Carolinas 70 per cent. The southern states have the worst record, but in some of the northern states the record is very bad. In Indiana it was 53 per cent. in 1883, and 52 per cent. in 1884. In Illinois the ratio of incendiary fires in 1884 was was 20 per cent., in Wisconsin 35 per cent., in New York 25 per cent., and in Massachusetts 22 per cent. These figures show a terrible record of crime

The Chicago *Journal* says It would be interesting to compare the ratio of incendiary fires in a prosperous year with the ratio in a year of depression in business When a man is doing a profitable trade he is likely to save his goods for his customers instead of burning them up for the purpose of getting pay for their value from the insurance companies. In this respect as in many others, business reverses and hard times are fruitful causes of criminal violations of law It is undoubted that where failures are most numerous fire losses are heaviest But these coincidences may be reciprocally produced by each other Fires cause losses and consequent failures. On the other hand, dishonest business classes in failing circumstances burn up their own property, hoping to save from the wreck as much of its value as possible by collecting the amount in cash from the companies in which it may be insured The statistics of fires caused by carelessness are hardly less interesting and startling than those of incendiary fires. They show how vast is the wanton or criminal destruction of property annually and incidentally the vast tax paid by labor for its reproduction

BRITISH AND AMERICAN MILITARY POLICY

The elevation of Lord Wolseley to a new and distinguished rank, reported from London by telegraph may occasion some surprise to those not familiar with the English military policy Wolseley's performance in the Soudan for which this new honor comes as a reward, was by no means remarkable He led a body of men in a long and painful march, but did not fight a battle His conduct was fairly good but by no means heroic. There is scarcely a colonel in the American army serving in the West during the past twenty years, but who has done more painful, difficult and dangerous duty Contrast the work of Wolseley with that of the late Col Sully, Gen Gibbon, Gen Crook Gen Miles Gen Howard, Col Thornberg and a score of others And yet the English commander is loaded with rewards, financial as well as honorable, while the American officers get just as much credit as may come to them through the public gratitude, and very uncertain and unsubstantial reward [illegible].

This contrast grows out of the difference between English and American policy It is a constant effort of the former to maintain a military spirit in the nation, and this is accomplished by honoring conspicuous soldiers The British commander in the little Boer war in South Africa was made a national hero and now almost equal distinction is given to the commander of a toilsome and useless march In America, on the contrary, the effort is to promote the civil spirit Not even our greatest commander was given other substantial reward than that accorded by regulation to a retired officer, and even this little was tardily and reluctantly voted him. But if, once every few years, a conspicuous British officer is highly rewarded, it is only to make an example of him. The lower grades get nothing but a miserable allowance which scarcely more than pays their mess bills. The American officer gets no medals no special rewards, but he is always well paid. If he be a man of soldierly dignity he makes no complaint because he is not speedily rewarded for doing a soldier's duty It is to the credit of our American army that so high a quality as valor is a matter of commonplace

A MATTER OF COMMON SENSE

Our attention has been called to the course of study prescribed for children of ten or fewer years, who attend the primary department of our public schools, and we are not surprised to find here, as in many other particulars of school management, a manifestation of incompetence and imbecility It would be strange, indeed, if it were otherwise—under all the circumstances The public schools of San Francisco, St. Paul, St Louis, New York and elsewhere (not to mention Boston) have an almost uniform course for primary pupils, adapted by its simplicity to the capacity of young children It is the purpose of the primary department in all these schools to teach children how to read, how to write and how to spell, and the methods by which these essential and rudimental matters are taught are simple, natural and practical. There is no attempt to teach rules or philosophies for these, so far as they are needed in simple branches, coming naturally after the knowledge has been acquired practically

But in the Portland schools a child scarcely masters the alphabet before he is set to work memorizing definitions (pages on pages of them), theoretical, technical and impossible of comprehension to a child of untutored faculties. His mind is burdened and wearied, his memory taxed and his reason dazed by an overload of stuff which a year ahead would come to him without effort. Another thing required of the Portland primary pupil, is to learn the various tables of addition, subtraction, multiplication and division, etc., through the hard process of memorization, unaided by a practical use of numbers, which comes later There are other items in the Portland course, which, like these, only tax and weary the minds of children, and in which there is no attraction of interest and no mental discipline. It might be imagined that a very little sense and a very little experience would prove the folly, the absolute mischief, of this method It is evident to every parent who follows the school course of his child, but "the management" cannot or will not see it and the outrageous system continues from year to year

Portland is extremely liberal in the matter of public education It provides at great cost magnificent school buildings and maintains a large corps of excellent teachers but much of its generous effort is neutralized or turned to actual disadvantage by the narrowness or stupidity of the school management The gentlemen who have been commissioned to direct school interests ought to look into the technical matters of school management more closely It is well enough to have the assistance of "professors," but it should be borne in mind that the "professors" are the assistants and not the masters. THE OREGONIAN particularly recommends that the directors examine this matter of the primary course, comparing it with the primary course of the San Francisco schools And it would be well to examine it as it is actually taught and not as it may be explained by an adroit and smooth tongued "professor"

> If democratic papers are laboring with a light and [illegible] to make it appear that the last month of General Grant's life were filled with regret about his course toward the South during his presidency it will be very easy for THE OREGONIAN to copy a few extracts to support its assertion. Will THE OREGONIAN be kind enough and honest enough to point out where the *Standard* has distorted the record of the dying man —*Standard*

We don't keep a file of the *Standard*, and wouldn't think it worth while to reprint its editorials at length, if we did. Nor is there need They who have read them know that their whole drift has been to make it appear that Gen. Grant's utterances about the South during his last days were different in tone, spirit and purpose from former views held by him and from the views still held by the republican party, and that the record of Grant's last sayings, distorted by comment, has been paraded by the *Standard* as a "rebuke" to republicans who are so wicked as to believe that equal rights ought to be maintained and enforced in the southern states. Gen Grant was too well balanced in his judgment to prove a renegade in politics to the principles he had contended for as a soldier, and therefore he remained a republican to the last Here and there a soldier, lacking this balance, has gone to the democratic party, but the whole number is few Gen Grant immediately after the war, said, "Let us have peace." The republican party on this declaration elected him to the presidency. His last message to the country was, "Let us have peace" The republican party approves it now as then. It calls for peace on the basis of justice, equal rights and honest elections. Because it does so the *Standard* says it "swings the bloody shirt," and opposes reconciliation. That's what it is to have turned democrat.

An editor must cultivate always a sweet spirit of patience and resignation Otherwise he is sure to find annoyance and unhappiness. For instance, this sentence was written in an article for yesterday's paper, to-wit

> Not a genuine newspaper on this coast has made any reduction of wages to any class of its employes though many bogus newspapers have done so

For "has" near the beginning of the above sentence, the compositor put "have" This was marked in the proof for correction but instead of making the correction the compositor changed the word "have" near the end of the sentence to "has" The worst of it was that in the very paragraph where this blunder was made we were speaking of the necessity which every newspaper is under of employing skilled and careful workmen The incident shows how a newspaper may at times be the victim of misplaced confidence Again, the editor wrote "Even the *Standard* is not ashamed to distort the record of the dying man (Gen. Grant) for partisan objects." This appeared "*as* partisan objects." Now and then a day comes along when the "subs" about the type room seem to have it all their own way

---

Samuel J Tilden is one of the old copperheads who put in a hypocritical letter of "condolence" on the death of Gen Grant. In it he spoke of "the transcendent services of Gen Grant to our country" THE OREGONIAN remarked "And yet Mr Tilden was among those who stood in passionate opposition to every thing Gen Grant did for 'our country' from first to last" Now comes the Yakima *Signal*, edited by a mugwump who has been outfitted with an office to reconcile him to the embraces of democracy saying "And what if they did? Were they not honest in their convictions?" Perhaps they were. But if they were honest in their convictions, what is to be said of their intelligence and judgment And what is to be said of the party that finds in such men its most sagacious leaders No wonder the mugwump sees the necessity of apology for those with whom he has cast his lot.

A dispatch from San Francisco says it is reported there that E J [illegible], of Oregon is the person concerning whose appointment President Cleveland wrote the sharp letter to a man who had recommended the appointment and then wrote a remonstrance against it and a request is telegraphed THE OREGONIAN to find out. But we don't know how to find out. Possibly Judge Bellinger could throw some light on the subject

South Carolina is reaping the fruit of the sowing of her democratic leaders. The Charleston *News and Courier* prints this from Laurens county

> If the state authorities do not do something to stir up our local peace officers this section will lose half of its negroes next winter and we are short handed already There are not half so many negroes here now as there were fifteen years ago. They have been bullied by roughs and forced to leave We guaranteed them protection when we succeeded in 1876, and they ought to have it. It is almost impossible now to get a negro to work in the fields by himself They declare that they are afraid of being shot. Our people want peace and law.

State Senator Sutton of Iowa, a noted prohibitionist, who has been looking into the liquor question at the south, finds politics in it A Richmond (Va.) democrat said to Sutton "The majority of the democrats of the south are in favor of prohibition, but the democrats of the north are against it, and if we should make it a party question it would tear us all to pieces.

Private advices from New York say that a contest is going on between Mr Billings and Mr Wright for ascendency in the management of the Northern Pacific railroad Mr Billings is understood to favor the O. R. & N. lease, Mr Wright opposes it. The question of final ratification of the lease by the Northern Pacific may depend on the issue of this contest.

Here now is the New York *Times* not at all pleased with the "vindication" of Old Tom's postmaster, and intimating that the mugwump fight against him is not ended yet. It says "There remain other and more serious charges as to Mr Jones's conduct as an 'offensive partisan' outside the rules, to which the president will probably give future attention

---

Gen Fitzhugh Lee, of Virginia, claims to have responded twice to the call of his state and of Jeffersonian democracy The first time was when he entered the confederate army for the overthrow of the Union The second was the other day when he accepted the democratic nomination for the governorship

A VALUABLE INVENTION.

Messrs McDonald and Townsend of this city have been granted a patent on an automatic damper regulator that for simplicity of construction and reliability of action goes far ahead of anything of the kind ever before invented. The regulator which is connected to the boiler by a one quarter inch steam pipe consists of a cylinder of one and one quarter inch bore and six inch stroke a small valve chamber and valve and a coil spring. The spring holds the valve down on its seat against the boiler pressure and can be regulated by a set screw to lift at any pressure desired. When the boiler pressure exceeds the tension of the spring the valve lifts and allows the steam to enter the cylinder forcing down the piston and by suitable levers closing the damper or dampers. A slight diminution of steam pressure reseats the valve and opens an exhaust port giving instant release and reopening the dampers.

The invention is highly approved by all scientific mechanics and has proven a success, it having been attached to Mr McDonald's locomotive engine No 3, on the Albany express of the Oregon & California railroad.

It shows a saving of half a cord of wood per day, and maintains a boiler pressure inside of *one* pound variation. The inventors claim that the saving on a boiler by guarding against unequal expansion amounts to more than the economy in fuel.

Mr McDonald has been connected with the Oregon & California railroad for the past fourteen years and Mr Townsend is well known in this city as draughtsman and mechanical engineer in Mr Gates's office in the old Oregon Steam Navigation and Oregon Railway and Navigation company.

Fruit Shipment.

A carload of fruit shipped by a prominent firm of this city on August 4 to Chicago by freight train over the Oregon Short Line reached Council Bluffs in [illegible] days. This demonstrates that fruit can be shipped by the Short Line fast freight and arrive in good season, saving the shipper about $300 per car as the rate by freight train is only $1 50 per 100 pounds, as against $5 per 100 pounds by passenger train.

A. B. Steinbach, the Clothier and Hatter, having placed all his New York orders in Fall and Winter goods, will sail to-night for California to select all California made goods. In the meantime all goods on hand will be sold at actual New York cost.

LOCAL AND GENERAL.

GETTING READY TO MIGRATE.—The birds seem to be collecting in flocks as if getting ready for their annual migration. Some are inclined to believe from this that we are to have an early winter but the birds may be only gathering, ready to start, which will later with the prognostication. It has been remarked by many that the number of birds and of species of birds visiting and staying in this city and vicinity has greatly increased of late years, and this increase has been particularly noticeable this season. In the residence portion of the city blue birds, wild canaries and several kinds of sparrows so called have been very numerous this summer. Many kinds of birds follow in the footsteps of man and become more numerous as he clears away the forests and plants orchards and grain fields. Perhaps some old settler can tell whether there are any species of birds here now which were not here when he came and also which they are. There is one little bird which is very plentiful around town which begins to make a noise probably intended for singing, about 3 o'clock in the morning. It has about three notes which sound like the squeaks made in one revolution of a wheel on a wooden axle lacking grease. It keeps up these discordant sounds as regularly as would the wheel of a vehicle in motion. Some of these pests have had their homes in the locust trees under the writer's window all summer and often when he has not sought his couch till 3 A M they have kept him awake with their infernal cheeping till all concerned were tired and although he has looked for them many times he has never been able to ascertain what kind of a bird it is. These birds are not wanted here and had better go west.

REAL SHAD AND NO MISTAKE.—There has been some doubt expressed in several quarters as to whether the shad caught in the Columbia river were true shad, and descendants of those planted in California waters some years since. One reason for the doubt was that while the shad in California have attained their full growth weighing six pounds or more the shad caught in the Columbia this season were with few exceptions, no larger than those caught last year and very few of them weighed over two pounds. It has however been established beyond doubt that the shad caught in the Columbia river are real shad. THE OREGONIAN is in receipt of a communication from Hon Spencer F Baird, United States commissioner of fisheries stating that several samples of the fish in question have been received by him, from examination of which he has been enabled to determine the facts in the case and that there is no doubt whatever as to the occurrence of shad in the Columbia river. This settles the matter and we shall hereafter be enabled to wrestle with the bones in these fish with more complacency.

TAKING ABSOLUTE REST.—Judge Seneca Smith, who is camping at Clatsop beach, came up one day this week to take down his horse and buggy and a new supply of ammunition. When asked by an OREGONIAN reporter whether he had taken any cases with him to look over in a place where it was not warm, nor dusty nor smoky, nor unpleasant in any way Judge Smith answered

"No, sirree. I went away to take a rest and I'm taking it. I have forgotten all about law and trials and arguments. Judge Kelly and Judge Bellinger were very anxious to argue a case in chambers during vacation and I told them I would hear it provided they came to Clatsop and went right down to the surf to make their arguments so that I could hear the ocean's roll at the same time." The health of Judge Smith's wife is considerably improved by the short stay at Clatsop. Sam Stott and the "Judge" made a reconnoisance of Tillamook head last week and discovered fresh elk tracks. Now that an ample supply of ammunition has been secured they will begin slaughtering late this week.

OREGON FRUIT ON TOP.—Fruit dealers ordered considerable quantities of peaches by the last steamer but before she arrived Oregon peaches came in with a rush and spoiled the sale of the California fruit. There will be no more peaches ordered from California for a while. Oregon watermelons have driven California melons out of the market. Ferrar received 800 from The Dalles yesterday, and other parties 400 more. Cantaloupes continue to come from California and are larger than any produced here. Of musk melons or nutmeg melons 160 were received here yesterday from The Dalles. When just ripe enough they are but little inferior to the cantaloupe. Oregon grapes have not commenced to come in yet, and we shall have to look to California for our supply for some time yet. Year by year we are coming nearer and nearer to producing all the fruits and vegetables we need. The earlier season in California will always cause some fruit and vegetables to be brought here but there will be less of it each succeeding year.

ARRESTED THE WRONG CHINAMAN.—Yesterday a Chinaman applied to the office of Internal Revenue Collector Whitcaker for a license for one Hop Sing of Corvallis to sell cigars. It appears that the collector has been informed that Hop Sing has been selling cigars for some time without a license, and was on the lookout to arrest him. The Chinaman applying for the license said he was Hop Sing so the United States marshal was notified and at once took the fellow into custody. He was badly scared and asked that Wing Sing be sent for and when the latter arrived at once handed over to him the money which he had brought to pay for the license. It turned out that Wing Sing had received a letter from Hop Sing, of Corvallis, asking that he would take out a license for the latter. Wing Sing had sent Lum Bac up to procure the license. Lum thought it was necessary for him to give his name as Hop Sing the man who wanted the license and therefore was arrested. He was mighty glad when he was set at liberty.

HOW LEONARD'S NECK WAS SAVED.—The syllabus in the case of Washington territory vs Leonard who is under death sentence for murder, and to whom a new trial was granted shows that the case was reversed on other grounds besides insufficiency of indictment to sustain murder in the first degree. The other grounds were First errors in the charge of the court. Second errors in admitting certain evidence. Relative to the insufficiency of the indictment the supreme court followed a ruling in 8th Ohio reports which is supported by many good authorities but upon which there is much conflict of authorities. They hold the indictment invalid because the words "deliberate and premeditated" were omitted in a certain place, the omission having been made out of regard somewhat for grammar and to prevent seeming unnecessary repetition. Judge Wingard dissented from the judgment of the court following the line of the 8th Ohio report.

COULDN'T WORK FOR A CHINAMAN.—A day or two since an advertisement appeared in a city paper for a girl to do housework in a small family. A girl applied for the situation and after being informed as to the number of persons in the family, the work she would be expected to do, etc., expressed herself as satisfied with the situation and willing to go to work. "Perhaps," said the lady of the house, "you may not be satisfied with my husband." "Why, what is the matter with him?" asked the girl. "He is a Chinaman," was the reply. The girl did not stop to think twice over the matter but left at once. She could not work for a Chinaman even if he had a white wife and the place was an easy one. She would have been disgraced with her associates. This seems hard on the servant girl, but lawyers and doctors work for Chinamen and when any kind of business people are ready to serve Chinamen in their line with the same alacrity they do white people.

MISS DUBOIS'S SUCCESS.—For three years past Miss Belle DuBois has been abroad working steadily and earnestly under excellent direction to perfect herself in singing and to acquire the art of acting. It will be gratifying to her many friends and admirers in this city to learn that her abilities have been recognized. About the middle of last month she closed a season at Carlasco Italy singing Amina in "La Sonnambula," with great success. She was called before the curtain three times and as often showered with flowers. She has received an offer from the manager of the Costanza theater in Rome for an engagement from next December until next April which she will probably accept after her return to Milan. It is the opinion of her present manager that she is now ready for the first theaters and that she has every requisite to become one of the best singers of the land.

[illegible] CHANGE.—[illegible] first [illegible] railway [illegible] to adopt [illegible] the other lines will doubtless follow. It is simply providing the drivers with change from 10 to 50 cents in sealed envelopes, about the size of a medium business card. These envelopes are carried in a belt, and a passenger need not wait indefinitely while the driver is fumbling in his pockets for 5 and 10-cent pieces. Besides, there is no danger of dropping small coins on the floor. The system is alike convenient to passengers and drivers, and patrons of the Washington street and Third street lines would be grateful if these companies would follow the lead. The plan of giving change in sealed envelopes has been in vogue on [illegible] [illegible] east for years and there is no reason why it should not be generally adopted here.

STRANGE BIRD.—R C McGregor returned from the beach yesterday, bringing with him a singular bird which his dog retrieved out of the breakers and which no one at the beach could identify. It is about the size of a teal duck perhaps a little larger and of a dark brown color. Its feet have three toes, with a web between two of them only. But the most singular thing about the bird is its bill which is very large and of a brownish yellow color, with several creases across it. It is probably a species of the auk commonly known as the sea parrot but as the auks inhabit high northern latitudes, this little fellow must have wandered far from home. Mr McGregor will have the bird skinned and mounted when all will have an opportunity to see it.

[illegible] FRUIT.—Last evening two sacks of crabs were received at the reporters' room of this paper from friends at the seaside. There was a very perceptible odor of the briny about them and the unfortunates who are compelled to stay at home and swelter disposed of a dozen of the crustaceans around the room and played being on the beach. The many good things sent abroad in THE OREGONIAN do not all fall upon barren soil but bear fruit, and are returned in the shape of other good things such as peaches from Jackson county, prairie chickens from Eastern Oregon, crabs from the beach, oysters from Yaquina, melons from The Dalles, and many other things which are showered on the force by friends everywhere.

PUGILISTIC.—The pugilistic sharps around town have been seized by a fresh attack of fistomania, and at least two prize fights are on the tapis. Billy Morgan has gone into training to fight a poor stranger named Edwards. Billy is tougher than a boiled owl and will furnish Edwards some lively entertainment. Dave Campbell has put up $1000, which if Riley can cover, a fight will take place between them, and the vexed question as to which is the "better man" of the two will be settled. Campbell is to be trained by Duncan McDonald, of Butte and Riley by Leary, of San Francisco.

TROUT CLIMBING A TREE.—The latest fish story comes from Latourelle falls, and is attributed to Eugene Frotzman. The fish in the lake near the falls leap several inches clear of the water to take the flies which Frotz offered them. The other day he got his line entangled in the boughs of a tree which leans out over the lake and despairing of ever getting it clear sat down on the shore in order to do the subject justice at his ease. He was much astonished to see a fine trout leap upon the sloping tree trunk, wriggle along up it and out on a limb and then make a jump and fasten himself on the hook dangling in mid-air where he kicked his life away in a most joyous manner. Eugene must have attractive hooks.

BOAT RACE.—The postponed race between the Athletes and Oarsmen of Willamette Rowing club takes place this evening at 6 P M sharp. The crews have decided to row the usual two miles, from foot of Pine street to water works and return. The Athletes will row in the cedar shell Willamette, the crew consisting of T S Dunbar bow, H [illegible] No 2, A M Donaldson No 3, S Dunbar stroke. The Oarsmen will use the paper shell and row G F Willett bow, L Martin No 2, A McAlpin No 3, John Gill stroke. This race is for club superiority and will be hotly contested from start to finish. Should the evening prove fine a large crowd of people will witness the race.

MUST RAISE THE $4000.—At 10 o'clock this morning the committee appointed by the board of trade will begin the work of raising $4000 to pay one half the cost of sluicing out St Helens, Walker's Island and Martin's Island bars. The wheat fleet is beginning to arrive and there is no time to lose. Portland can not afford to allow the stories of heavy cost of lighterage again to get abroad. The city has got to raise the money and the sooner the better. Let those who intend to give—and every business man can contribute something, give promptly.

RAISING THE LATONA.—Preparations were begun yesterday for raising the sunken steamer Latona. A large barge has been moored on each side of her and large timbers laid from one to the other. Chains have been passed under the Latona and made fast to the timbers. By means of jack screws the timbers will be raised and the boat brought to the surface and floated away between the barges to a place where she can be repaired. The extent of the damage to her hull can not yet be ascertained.

THE TRIP OF THE SEASON.—On Saturday at 2 P M the Multnomah will carry from foot of Alder street one of the most pleasant parties of the season to Astoria. The party will dance at Ross's opera house in the evening and in the morning go over to Ilwaco. Special arrangements have been made to make all comfortable at Astoria. Tickets can be had at Allsky's music and book stores and on the dock. The excursionists are promised a time as well as away that are to be expected while on the boat.

CHILD'S BODY FOUND.—About 2 o'clock yesterday afternoon Coroner Cooke received a dispatch from Mr Fichler foreman of a cannery about a mile below Lonnsville stating that the body of a child had been found in the river there and asking for instructions as to what to do in the matter. Mr Cooke left at 3 o'clock on the Atlantic express to hold an inquest. It is supposed that the body is that of the Snyder child who was one of the party of five swept over the Cascades a few days since.

TEMPERANCE CENTENNIAL CELEBRATION.—Under the chairmanship of Prof G M Miller, president of the State Temperance alliance the executive heads of various state temperance organizations met on Monday afternoon at 204 Third street, to arrange for a suitable temperance centennial celebration next month at various towns in Oregon in accordance with the request of the different national temperance societies. The call, programme and details will shortly be issued.

VICTORIA BASEBALL CLUB COMING.—On Friday of next week the Victoria Baseball club the only nine which has been able to defeat the Portlands so far this season will arrive here and play two games with the Portland champions. They will be accompanied by an excursion party numbering 300 or more.

THIRD MATCH FOR THE MEDAL.—Wm Robertson of Seattle yesterday telegraphed Will Curry that he would arrive here on Sunday's train and asked Curry to arrange for a match at 3 o'clock in the afternoon. The shoot will probably take place at City View park though this has not been decided on.

REAL ESTATE SALE.—Walter O'Shea yesterday purchased the A J Hamilton property at the southwest corner of North First and B streets paying therefor $1 000. The lot is 50x100 feet and on it a one-story brick building containing two stores fronting on North First and two on B. It is generally considered that Mr. O'Shea made a good bargain.

FINAL MEETING.—There will be a meeting of the general committee who had charge of the Grant memorial services this evening at 8 o'clock at the Grand Army hall for the purpose of settling up the finances and paying the bills.

SATURDAY NIGHT TRIP.—The usual trip will be made on Saturday night by the Lurline leaving at 11 [illegible]. The usual connection for Ilwaco.

THIS YEAR'S SALMON PACK.

IS IT DAWNE?

The President's Excoriation of a Correspondent who had Endorsed an Appointment which he Afterwards Pronounced Unworthy

A Washington telegram to the New York *World* states that it is believed the celebrated correspondence between President Cleveland and a man who had endorsed an unworthy candidate for a U S judgeship and afterwards wrote to the president a private letter saying the candidate was not fit did not refer to a Cincinnati man and that the letters were procured at another place than Cincinnati. It is thought the name of that city was given for the purpose of cloaking the real authorship of the letter to the president. It is now hinted all over the country that E J Dawne of Oregon was the appointee referred to. We find the president's letter by telegraph but not the letter to him. We now give both together. If Mr Dawne's appointment be the one referred to who wrote the letter about it. It would just have time to go from Oregon in the interim from July 24 to August 1. As stated here before in our telegrams a Wisconsin appointment and this Oregon appointment were the only appointments to judicial positions made in July. If the letter was written in Oregon possibly a study of its style may reveal the author. But we do not see why Dawne's appointment should be the gift so bad a one. And who is the person referred to and protested against for another position. Is it an ex-chief of police of Portland. The correspondence gives rise to several interesting inquiries. Here it is in full.

—— July 24 1885

To the President, Washington D C

Dear Sir This community read the announcement of the appointment of —— to the —— judgeship with astonishment and regret, I might say. And none were more astonished than those who had signed his petition. And I regret to say that my name is to be found upon it. I have refused several whom I knew to be unfit but I signed this one thinking it would never be considered and not for one moment believing the appointment was possible. When first presented to me I put him off and hoped to escape, but he came again with it and with others, I signed it thinking there was no chance for its reaching even a consideration. I think not a man whose name is on it had the remotest idea that his appointment was possible. Not one upon it would have appointed him had he the appointing power. He is not qualified morally or professionally. He is scarcely a lawyer at all while the place will require a good lawyer. I do not wish to say more than to put you upon inquiry. We are friends and do business with one another, and it is unpleasant to have to say this. But it is due your responsibility and to every one who signed that petition. And it was signed by many prominent men who hated to refuse and hoped and thought it would result in nothing. I do not wish you to take any action upon my representation but if you wish to know the real opinion of the signers of the petition cause some of them to be addressed privately, and I think they will confess the objections to the appointment greater than I have intimated. The petition is signed by two of our supreme judges. —— Let them both be privately addressed. It is not too late, and I think you will learn the facts.

I do not wish to sneak behind a private letter but at the same time I would prefer that my name be not given to —— for obvious reasons, and I do not suppose it will be thought necessary to do so.

—— is an application for appointment as —— I have written to you before about him. He too has a petition signed by reputable men (my name is not on it) not one of whom would appoint him to any place whatever or any trust whatever. He is wholly without character even if he had other qualifications for the office and he has not. His would most emphatically be an appointment not fit to be made. Yours very respectfully,

——

EXECUTIVE MANSION,
WASHINGTON Aug 1 1885

Dear Sir I have read your letter of the 24th ult with amazement and indignation. There is but one mitigation to the perfidy which your letter discloses and that is found in the fact that you confess your share in it. I don't know whether you are a democrat or not but if you are the crime which you confess is the more unpardonable. The idea that this administration pledged to give the people better government and better officers and engaged in a hand-to-hand fight with the bad elements of both parties should be betrayed by those who ought to be worthy of implicit trust is atrocious, and such treason to the people and to the party ought to be punished by imprisonment.

Your confession comes too late to be of immediate use to the public service and I can only say that while this is not the first time I have been deceived and misled by lying and treacherous representations you are the first one that has so frankly owned his grievous fault. If any comfort is to be extracted from this assurance you are welcome to it. Yours truly,

PORTLAND Aug 12

TO THE EDITOR OF THE OREGONIAN

A communication appeared in this morning's OREGONIAN over the name "Third Ward," which contained so many apparently intentional misstatements of well known facts that I feel constrained to ask for sufficient space to point them out. I shall not dwell on the committee appointments for I am satisfied that Mr Gates's career as mayor will prove far more commendable than "Third Ward's" as the councilman who failed to even propose to remedy the evils which he now essays to put upon the city surveyor street commissioner or somebody else. (By the way the title of street commissioner was changed to superintendent of streets after "Third Ward's" term in the council expired.) To be brief. Neither the city surveyor street commissioner, or any other city official, has "got the foolish idea in their heads that the four corners at the intersections of the street ought to be on a common level," and it is a matter of fact that nowhere in the Third ward are the four corners at street intersections on the same or a common level. Furthermore, "Third Ward" again plainly misstates facts when he says "this level corner plan has been carried" among the heavy grades. All city legislation during the past twenty years has tended strongly toward removing even the appearance of level intersections among steep grades and if "Third Ward" will put on his spectacles and read ordinance No 2815 entitled, An ordinance in relation to the improvement of streets he will find how sadly he is out of his reckoning. On these false statements "Third Ward" has written a long argument which amounts to nothing more than that rain storms even here in Portland sometimes flood the streets especially when the gutters are choked with debris from wood piles, etc. which the water carries to the entrance of the gutters. The trouble is the city surveyor and street commissioner, or whoever they are are so hampered with the property owners' [illegible] remonstrance that grades and improvements must be made in too many instances to please local wishes and I am very much of the opinion that if this same "Third Ward" had not remonstrated and posed so strongly against some proposed sewers in his immediate vicinity they would have been constructed this fall and he would be entirely relieved of that flow of water he dreads so much in his warm weather. To still further illustrate "Third Ward's" ignorance of Third ward affairs I may tell him that only a short time ago Councilman Fieldner introduced an ordinance to amend No 2809 so that there should be continuous grades on all new streets in the Third ward and elsewhere in the city, but even if such an amendment is lawful without any notice having been given no one would claim that without consent of the property owners the common council could change the present plan of improving street intersections where streets have already been permanently paved while on heavy grades gives one foot fall in crossing streets which run north and south. And now the city charter is so amended that grade or change of grade cannot be proposed by the common council until the owners of half the property affected thereby shall petition for such grade or change of grade. But for all this cranks and fools will continue to din in the ears of the common council and the city [illegible]

CORRESPONDENCE

PORTLAND, Or Aug 12

J P Howe, Esq, Manager New Market Theater

Dear Sir—Upon the eve of our closing our successful engagement in Portland, we take this opportunity of expressing our admiration for the business-like way you attend to the wants of the theater-goers here, and of our kind treatment at your hands. While the Madison Square Theater management do not as a rule believe in benefits and testimonials we will in this case make an exception and offer to appear for your benefit on the evening of Aug 22 in W H Gillette's successful comedy The Professor, which will be presented for the first and only time here as a little token of the esteem in which you are held by the Madison Square Theater Company as follows W H Gillette C A Haslam W W Randall H F Greene M A Kennedy, F Tannehill Jr, H A Moray, Hal Warren, Geo R Boiler, Edwin Barron, Fannie Addison, Aida Talbot, Maude Haslam, Maud [illegible], Alice G Sherwood, Belle Jackson and others.

OFFICE NEW MARKET THEATER
PORTLAND Or Aug 12 1885

Messrs W H Gillette C A Haslam W W Randall M A Kennedy and members of the Madison Square Company, *Ladies and Gentlemen*: I am in receipt of your favor tendering me a benefit on Saturday evening Aug 22 and I can only thank you one and all for the kind feelings expressed. I shall always do all in my power at all times to merit your pleasant words. Thanking you for the same and accepting your kind offer, I remain respectfully yours J P HOWE

THE WALLACK COMPANY

The forthcoming engagement of the noted Wallack company at the Casino opera house next week will prove an epoch in the theatrical affairs of Portland and the indications are that they will attract large audiences during their brief visit. Their repertoire comprises only those pieces that have scored the greatest success at Wallack's theater New York during the past season and consists of "Victor Durand," "Moths," "Lady Clare," "Diplomacy" and "Esmeralda." The first named play is almost Greek in its observances of dramatic unities. The scene is laid in Paris and the events on which the work is founded are based mainly upon circumstantial evidence and mistaken identity. The story is told with a simplicity and straightforward compactness that places the work as regards literary attainment and dramatic construction far above modern drama. During its long run in New York scarcely a dry eye was perceptible in the vast auditorium of Wallack's theater, so strong a hold had the pathetic threads of the story wound themselves about the feelings of the audience.

"Moths" is dramatized from Ouida's famous novel and is considered a very powerful play. Robert Buchanan's beautiful play "Lady Clare," scored a great success both in London and New York. "Diplomacy" is Sardou's masterpiece and will be produced during the week. "Esmeralda," the greatest of all Madison Square theater successes with the above, will complete a repertoire of plays seldom seen during a week's engagement.

Two matinees will be given, Wednesday and Saturday. The sale of seats will begin this morning at McKercher & Thompson's book store.

THE ENGLISH INFINITIVE

PORTLAND Aug 12

TO THE EDITOR OF THE OREGONIAN

Will you not kindly publish the following protest for the benefit of a multitude of writers of our day and generation? This barbarism it seems to me is constantly growing and the *barbarism* of style spreading. You may find examples now almost in every newspaper you pick up; frequently in such journals as *The Century* and *Harper's Magazine*. There is a long list of them in my museum also. Among them are such as these "To at once commence," *commence* of course instead of *begin*. "To immediately proceed." "To unhesitatingly deny" etc all out without limit.

You surely will not refuse to lend your hand to correct this inexcusable deformity in our common speech. B W M

THE ENGLISH INFINITIVE

To is the sign of the English infinitive, as in *to think, to write, to say*, is as much a part or particle of the verb as it would be if placed at the end as an inflection. Though identical to eye and ear with the preposition *to* it is not used as a preposition. Nor has it the independent strength of an auxiliary to stand aside from its verb and to challenge notice in the parsing of the sentence. We should not do amiss I think, were we to join it on with a hyphen thus *to-think, to-write, to-say*. There are authors however who carelessly or conceitedly break up what is of all intent and purpose one word by wedging an adverb into its body. The habitual phrasing of such writers is "to mathematically think," "to elegantly write," "to correctly say." Not only adverbs, but whole adverbial phrases are now thrust between the particle *to* and the main body of the verb. "To in a certain measure accept" is a fine specimen which I captured a few days ago in the tangle of a leading article and have put it through for careful preservation in a little museum of such beauties. But I have seen that when only one word in adverbs is found stuck in the middle of a verb in the infinitive it is always one of those adverbs formed by adding *ly* (for like) to an adjective. Nobody has yet screwed his courage to using any other sort of adverb for the margin purpose. *Exempli gratia* the writer of "to mathematically think," and "to elegantly write" and "to correctly speak" would not say "to upright think," nor "to fast speak" or, would he? —*The Teachers*

PORTLAND PEOPLE INTERESTED.

The August number of the *Northwest Illustrated Monthly Magazine* of St Paul has just come to hand. It is replete with interesting and elegant engravings of Montana, and serves to show to the intelligence the grand resources and developments of that prosperous territory. This is the third number published since the starting out of E V Smalley with his corps of artists across the continent from St. Paul to Puget Sound the two previous numbers being devoted to Minnesota and Dakota respectively. The next number (September) of the magazine will contain handsome illustrations of the principal cities of Washington territory with descriptive articles of its resources. The October number and this is where Portland people are interested) will be entirely devoted to the illustrating of Portland and her suburbs with well written descriptive articles of our resources, vast tributary country and advantages as the commercial centre of the Pacific Northwest. The October number entire will be devoted to Portland and a well known Portland journalist thoroughly conversant with Oregon interests has been engaged to write the article which is a guarantee that our interests will be fairly presented. The artists are now at work making sketches of Portland and Mr T F Kane the business manager of the magazine is at work among our citizens securing the requisite patronage to enable him to make such a showing as Portland deserves. It is hoped that the greatest liberality will be shown by our leading citizens toward the enterprise as it will give Oregon and Portland in particular the widest and most valuable advertising in the eastern and middle states that has ever before been attempted.

The Northern Pacific railroad has contracted to take 10 000 copies of this number for free distribution in the East which with the extra copies taken here and the regular circulation of the magazine will swell the issue to over 30 000.

NOT A COMMON HERITAGE.

SILVERTON Aug 1

TO THE EDITOR OF THE OREGONIAN

Twenty five years ago the power of this country was taxed to its utmost capacity in defense of its very existence. During the four years of this life and death struggle the aid and sympathy of the English ruling classes were with the enemy who was attempting our destruction. To these people and the confederacy the names of Lee and Jackson and Thompson and Booth may be one common heritage. But when Canon Farrar associates such names with those of Grant and Garfield as a common heritage to America all loyal America resents the implication as a gross outrage.

In all ages patriotism has been considered as the greatest of human virtues. Treason as the sum of infamies. Grant Garfield and Washington were patriots and future ages will honor them. Lee, Jackson and Benedict Arnold were traitors and their names will ever be held as infamous.

"Let us have peace" is a noble sentiment, but peace unless it has for its foundation the eternal principles of honor and justice is too dearly purchased. Woe betide the day when such atrocious utterances as that of this sympathizer with treason are accepted with other feelings than those of revulsion. No. It will never do to teach the youth of this land that the names of those who took up arms to destroy this country are equally to be honored with those who gave up their lives in its defense. Eternal shame for the one and everlasting honor for the other. KENTUCKIAN

STATE LIMITS FOR HOGS

INDEPENDENCE Aug 10

TO THE EDITOR OF THE OREGONIAN

Please inform me through the WEEKLY OREGONIAN if it is lawful for hogs to run at large in Marion county, and oblige, J B PARKER

[Sec 1 of an act approved Oct 24, 1882, provides that the owner or keeper of swine shall not allow the same to run or be at large out of his own enclosure in the counties of Polk Lake Multnomah Washington, Yamhill and Marion counties and that part of Linn county south of the South Santiam river, and that part of Clackamas county known as Oregon City Oswego Canemah and Milwaukie precincts under a penalty of $10 for the first offense and $25 for each and every subsequent offense.

This law was originated in Tillamook county but by some means that county was not included in it. The citizens of Tillamook wished to have such a law to protect their clam flats. The hogs over there go along the beach in droves and devour all the shell fish and in order to save these for the consumption of the more appreciative human the above law was framed but Tillamook got left. Probably the hog interest over there was more potent than the clam interest. If there is anything else Mr Parker or anyone else wishes to know about hogs or anything else just drop in a line for THE OREGONIAN knows a heap of things]

COURTESIES TO THE GRAND ARMY.

VANCOUVER BARRACKS Aug 10

TO THE EDITOR OF THE OREGONIAN

In a paragraph of your paper of the 8th inst, attention is invited to an asserted neglect of courtesy by the regular troops toward the Grand Army of the Republic. Proper courtesies were extended whenever sanctioned by the custom of service or permitted under tactical formations. It is presumed the editor referred to the occasion when my command was halted to allow the veterans of that organization to enter the pavilion first. The regulars were there halted for a moment to allow them to pass. The troops were marching to the music of a funeral dirge and the Grand Army could not have been properly formed and arms presented, or it would have been done. It would be far from the intention of any officer to willingly offend the sensibility of such an honored body of men.

Very respectfully yours,

SERIOUS ACCIDENT TO A LADY

Early last evening a wagon drove up in front of the postoffice, containing Mr and Mrs. W H. Parker on the front seat and Mrs. Simpson their daughter, and a little daughter of Mrs Simpson on the back seat. As soon as the wagon stopped Mrs. Simpson stepped on the edge of the wagon and essayed to jump to the ground but her dress caught on the edge of the seat and prevented her. Her position was reversed in consequence, and she fell forcibly on her head her legs resting against the bed of the wagon. She was carried into Dr Rafferty's office adjacent in an unconscious condition and remained unconscious for some hours. Her injuries consisted of concussion of the brain a severe scalp bruise on the back of the head and a severe shock to the system. Mrs Cougill, postmistress kindly gave the use of one of her rooms for the sufferer until such time as she could be conveyed home with safety. She resides with her parents a few miles out on the base line road her husband who is construction foreman on the Cascade division of the O R & N being absent.

WHEAT—Foreign advices continue of a steady tenor but there is no positive strength shown. Chicago and New York rule irregular. Our own market is weak with a light trade passing. Walla Walla grades quoted $1 10@1 12½ the extreme being had only in a small way. Valley may still be quoted at $1 [illegible] but is weak at that.

OATS—Some very choice feed sold at 3[illegible]c the quotation for good to choice being 31@34c. Strained in no favor.

PROVISIONS—Free arrivals of eastern have been noted from day to day as local stocks are not generally wide enough to draw upon for choice. Some dealers report heavy reductions in stocks of local while others say they have fair stocks with plenty in sight to be had when wanted. The request is seemingly more liberal and business is probably better than for some time past. Values are without quotable change. The price comparison with one year ago is very marked. Then hams sold at 16@1[illegible]c bacon at 12½c and shoulders up to 10c. Chicago then quoted pork at $22 50 lard at $7 12½ and ribs at $9 45. We quote local jobbing prices for ordinary parcels. City cured hams 10@11c bacon 9c shoulders 7@8c country cured generally ½@1c less eastern hams choice 1[illegible]@14c bacon 9@10c. Lard steady for choice. Quote best eastern tins 10@10½c best local in pails 10@10½c common 8c.

DRIED FRUIT—California is sending some through to Montana even apples going this way. The market is not only dull and weak but has an equally discouraging undertone. Fresh fruit cannot be shipped east with profit enough to induce free business and growers must dry their orchard product. The prune yield is said to be both good and heavy. Other sorts are plentiful. The request for dried does not improve. Nominal jobbing values are: Sun-dried apples and pears 3[illegible]c factory do 4@8c prunes 8@10c sun dried plums 4@5c factory do 6@8c best new peaches 9c raisins $2 75@2 per full box.

CHICKENS—Steady at last quoted prices demand takes all offering.

EGGS—Stocks light and receipts only fair. Quote 18@20c.

HAY—Deliveries from wagon free. Baled is largely offered but find slow sale. Best [illegible] $8@9 poor $6@

HIDES, SKINS ETC—Dry hides steadier under improved advices. Others dull and unchanged. Tallow drags at 5c. Quote dry hides 15@16c wet 5½@6c culls ½c off. Furs and skins quoted: Dark beaver $1 37½@1 75 valley summer deerskins 20@25c valley winter 15@20c eastern Oregon summer deerskins 15@20c do winter 12½@15c elk skins 8c per lb. The following sell by the skin: Black bear $1@6 brown do 50c@$5 dark fisher $3 50@5 pale do 50c@$1 silver fox $5@25 cross do $3@5 red do 50c@$1 0 lynx 37½@50c prime dark marten 25@75c, dark mink 10@40c, land otter $1 50@5 50 wolf 37½@50c wolverine 50c@$1 50

HOPS—Nothing of local interest to report. The growing crop has met with no reverse. Growers who have looked about for advances have met with poor success. San Francisco mail dates report: "Offers from buyers to contract for new crop hops at 9c are occasionally reported but growers generally ask 9½c and in consequence of this dead lock and the discouraging aspect of the market nothing of moment has been done in futures. For spot choice Sonoma, 4½c per pound is bid, but no transactions have been made public for a week and there is no such thing as an accurate quotation. New York dispatches are still of the gloomiest tenor the latest predicting a further decline at an early date. It was also stated that the New York yield would probably be [illegible] per cent. larger than last year's. The English crop continues to promise well. Dealers hesitate to make estimates concerning the yield of this coast it being the general impression that many growers will not have the money to gather their hops while some that have the funds will consider it unprofitable although it is claimed that it will be about 25c per 100 pounds cheaper than last year." New York dates of the last report: "The attention of dealers and consumers is largely given to reports concerning the new crop and as the outlook is favorable for a liberal yield and continued low prices buyers are unwilling to operate beyond current wants. It is reported that 9c has been accepted at the interior for choice grades to be delivered next month. Spot values are nominally unchanged on the basis of 10c for best grades."

WOOL—Receipts for the week 67 404 lbs including 11,211 lbs valley against 73 440 lbs last week and 22[illegible]03 lbs for the week ending August 1 last year. Since March 1st receipts have been 1 763,68[illegible] lbs valley and 2,326,850 lbs eastern—a total of 4 090,541 lbs. The local market has witnessed a light business but has continued steady because of advices. Buyers have taken no considerable quantity the movement being largely for consignment. Quotations are 13@1[illegible]c for common to choice eastern 1[illegible]@16c for same grades valley and 16@18c for Umpquas. San Francisco has reported an active trade at about these prices.

The New York *Shipping List* of the [illegible] inst says: "The demand for nearly all grades of domestic has continued good especially in Boston where activity has been the chief characteristic of the market during the past three weeks. The aggregate transactions is the largest on record for any corresponding period but the receipts also show a decided increase and the latter have been somewhat of a drawback to the upward tendency of prices which however have been well sustained, and show a firmer and better feeling though not quotably higher. Holders continue confident and some decline to sell except at an advance of 1@2 cents ₰ lb on current rates. Ohio and Pennsylvania fleeces have found ready buyers at 30 cents for X and 32@33 for XX and above. Michigan has sold at 28@29 cents, but some holders refuse to shade 30 and are virtually out of the market. Unwashed wools have been moving quite freely with Texas showing the largest proportion and values have ruled strong."

The Boston *Shipping List* of the 1st inst. says: "The demand has again been quite active with sales for the week of 4,218,800 lbs. of all kinds and for the past three weeks the sales aggregate about 1,000 000 lbs. It is not often [illegible] to report so large a business for three successive weeks and the transactions have been confined almost exclusively to domestic wool. While the sales foot up so large an aggregate it will be seen that the receipts are also the largest on record and for the week have been 7 000 000 lbs. It is evident that manufacturers appreciate the position of the article and are likely to purchase freely while prices are so comparatively low and the assortment of wool so large and desirable. So far as prices are concerned there has been no general improvement." Sales include 6[illegible] 000 lbs Oregon at 1[illegible]@18c.

The Merchandise Market.

The inward goods movement for the week has been large owing to liberal importations of eastern grocery stocks. Jobbers report a satisfactory call with every prospect for an increase when harvest is over. Foreign goods are in slow movement. Throughout prices show [illegible] quoted [illegible].

No new salmon pack estimates have appeared. The trade here [illegible] the settled belief that the Columbia river pack was about [illegible] 000 cases though no detailed estimate footing up over [illegible] 000 cases is reported to be [illegible]. Trade is quiet with no sales reported [illegible]. The outward movement is [illegible]. For New York the Bessie is about filled and for Liverpool the [illegible] is slowly loading [illegible] vessel [illegible] ahead and foreign shipment after tonnage now in berth is [illegible] light. A small bark has been taken to load at Victoria for London. Reports from Fraser river indicate a pack of 1[illegible]0 000 cases [illegible] expected two weeks ago. Cheap fish is proving a great incentive to free [illegible].

The San Francisco *Commercial News* in its summary for the week says: "The clearing house returns [illegible] this year over the same period of 1884 nearly every month the exchanges being larger than for the corresponding month of 1884. The totals for the seven months past are $321,969,837, against $314,425,070 in 1884, or a net increase this year of over $7,500 000. This shows that the condition of trade is by no means as deplorable as many would have it believed, although speculative activity having died out, the markets have a decidedly sombre cast. There is a good demand for refined sugar at steady rates while raw is weaker. Molasses is scarce and higher. Coffee is in fair demand. The interesting feature of this market during the fortnight has been the sale of some 6000 bags good unwashed Salvador at 8½c per pound, the large local stocks of this description and the not very encouraging indications of other markets having impelled holders to accept a lower basis. This induced an gave considerable stimulus to business and other kinds of low priced coffees have been freely dealt in. The better qualities are not much sought after with the exception of Costa Rica which is scarce and commands high prices compared with Guatemala. Sales for home consumption are showing a remarkable increase over former year the only discouraging feature of local statistics being the very limited demand for overland shipment. The rice market has been without special change except for mixed and Hawaiian both of which have ended downward in price. In the absence of positive information regarding the coast salmon pack the trade is inclined to accept the idea that it will be 100,000 to 200 000 cases less than last year. The whole pack of the Scandinavian Packing Company has been sold for export at better than $1 per dozen. The English market is reported demoralized by free offering of Columbia river fish at 1s 6d. The particular offerings consist of some 40 000 cases canned ex Ice King about two years ago which have since been held in warehouse under a limit of 20s. While the immediate effect upon the market is bad when the goods are finally disposed of it will doubtless help trade as this stock has been hanging over the market always threatening it at every sign of improvement. News from the codfishing fleet is favorable a good catch being reported. No changes have been made in prices here. Linseed, castor and cocoanut oils are higher. The bag market still favors the buyer. There is an active demand for canned fruits for shipment east at the prevailing low prices but the local demand is disappointing and it now looks as if the trade here were indifferent about stocking up before low rates will continue through the season."

THE LOCAL MARKET

BEANS—Imports light and call [illegible]. Best [illegible] little selling at 2½c.

ASSOCIATED PRESS MARKETS.

NEW YORK STOCK MARKET

NEW YORK, Aug 12.—Governments dull and strong. In the stock market Western Union attracted much attention. In the forenoon the stock was somewhat feverish, selling from 69¼ down to 68½ back to 69¾ and then down to 68¼ the lowest price of the day and a decline from last evening's closing figure of only ⅝ per cent. In the afternoon it rose to 70, and closed ⅜ per cent lower [illegible] of ⅛. The bear party is increasing in numbers, and its leaders say there has been a [illegible] in the manipulation of the market during the past two weeks which makes it a dangerous [illegible] for outsiders to touch and that in fact fluctuations are now due principally to manipulation by means of matched orders issued by professional operators, who are striving to make a market on which to sell out holdings. The Gould stocks were heavy. Vanderbilts and St. Paul firm and Louisville & Nashville Omahas Northwestern and Northern Pacific preferred strong, each gaining 1 to 1½ per cent.

Mining shares were strong but dull. Bodie shows considerable strength. Yesterday that stock was offered freely at $1 60, while to-day $1 80 was bid. The general market is without feature. Sierra Nevada sold at $1 5[illegible] Bodie $1 80 Central Arizona $1 10 Sutro Tunnel 18, Horn Silver $[illegible] 50, Colorado Central $1 20 California and Virginia $2 75 Union Con $1

A Clear Skin is only a part of beauty, but it is a part. Every lady may have it, at least, what looks like it. Magnolia Balm both freshens and beautifies.

COSTIVENESS

affects seriously all the digestive and assimilative organs, including the Kidneys. When these organs are so affected, they fail to extract from the blood the uric acid which, carried through the circulation, causes Rheumatism and Neuralgia.

The functions of the Liver are also affected by costiveness, causing

Bilious Disorders.

Among the warning symptoms of Biliousness are Nausea, Dizziness, Headache, Weakness, Fever, Dimness of Vision, Yellowness of Skin, Pains in the Side, Back and Shoulders, Foul Mouth, Furred Tongue, Irregularity in the action of the Bowels, Vomiting, etc.

The Stomach suffers when the bowels are constipated, and Indigestion or

Dyspepsia,

follows. Fetid Breath, Gastric Pains, Headache, Acidity of the Stomach, Waterbrash, Nervousness, and Depression, are all evidences of the presence of this distressing malady. A Sure Relief for irregularities of the Stomach and all consequent diseases, will be found in the use of

AYER'S PILLS.

They stimulate the stomach, free the bowels, healthfully invigorate the torpid liver and kidneys, and by their cleansing, healing and tonic properties, strengthen and purify the whole system and restore it to a salutary and normal condition.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists

TESTED FOR SEVEN YEARS BY USE IN MANY THOUSAND CASES.
TREATMENT
One Month $3 00
Two Months 5 00
Three Months 7 00
NERVOUS DEBILITY ORGANIC WEAKNESS Decay and numerous obscure diseases, baffling the skilled physicians, result from youthful indiscretion, too free indulgence, or over brain work. Avoid the imposition of pretentious remedies for these troubles. Get our Free Circular and Trial Package, and learn important facts before taking treatment elsewhere. Take a SURE REMEDY that HAS CURED thousands, does not interfere with attention to business or cause pain or inconvenience in any way. Founded on scientific medical principles. By direct application to the seat of disease its specific influence is felt without delay. The natural functions of the human organism is restored. The animating elements of life, which have been wasted are given back, and the patient becomes cheerful and rapidly gains both strength and sexual vigor.
